

Trac Support

Like in most [?open source projects](#), "free" Trac support is available primarily through the community itself, mainly through the [?mailing list](#) and the project wiki.

There is also an [?IRC channel](#), where people might be able to help out. Much of the 'live' development discussions also happen there.

Before you start a new support query, make sure you've done the appropriate searching:

- in the project's [?FAQ](#)
- in past messages to the Trac [?Mailing List](#)
- in the Trac ticket system, using either a [?full search](#) or a [?ticket query](#).

Please **don't** create a ticket in this Trac for asking a support question about Trac. Only use it when you face a *real* and *new* bug in Trac, and do so only after having read the [NewTicketGuidelines?](#). The more a bug report or enhancement request complies with those guidelines, the higher the chances are that it will be fixed or implemented promptly!
